## TECH SKILLS

HTML   CSS   JavaScript

React.js   Next.js   Firebase

Git   Github   Tailwind

## SOFT SKILLS

Continuous learning

Attention to detail

Time management

Adaptability/Flexibility

Strong communication and collaboration skills

Self-motivation

## LANGUAGES

**Arabic**                    Native

**English**                   Advanced

## SUMMARY

Recently graduated from the Re:Coded bootcamp, proficient in HTML, CSS, JavaScript, React Next.js, and Firebase. With strong attention to detail and excellent communication skills, I'm eager to contribute my web development expertise and make a positive impact.

## PROJECTS

### Student Store

**Demo** | **GitHub**

A marketplace made for all students. Any student could sell or buy or even borrow any type of products

- Engineered a dynamic frontend using Next.js, Tailwind CSS, and Framer Motion, delivering a seamless user experience.
- Established a Firebase backend to manage user authentication, data storage, and real-time updates for product listings.
- Collaborated with team members to implement Daisy UI components, enhancing the visual appeal and responsiveness of the user interface.
- Applied Firebase Firestore for database management, ensuring data consistency and reliability.

### So9ify E-Commerce Project

**Demo** | **GitHub**

A functional e-commerce website developed using Next.js and Tailwind CSS, allowing users to browse and filter products.

- Developed the front end of the website, utilizing Next.js and Tailwind CSS.
- Created an engaging and responsive user interface.
- Implemented features for product browsing, filtering, and shopping cart functionality.
- Collaborated with 4 team members to ensure seamless integration of the frontend with the backend, which was powered by Firebase.

### Neocine Movie Project

**Demo** | **GitHub**

Neocine is a user-friendly movie and actor information website powered by The Movie Database (TMDb) API, enabling users to explore the latest movies, popular actors, and more.

- Developed the website using Next.js and Material UI for Styling.
- Collaborated with a team to fetch real-time movie and actor data from The Movie Database (TMDb) API.
- Developed features for exploring movie details, actor profiles, and related content.
- Employed tools such as Figma for design

## EDUCATION

### Frontend Web Development

Re:Coded                    📅 06/2023 - 12/2023   📍 Oran, Algeria

- *Re:Coded Immersive boot camps are competitive, with a 2% acceptance rate*
- *Completing a 4.5-month immersive web development bootcamp, with 300+ hours of curricula and project-based learning*
- *Technologies:HTML, CSS, JavaScript, React,Next.js,Firebase,Tailwind Git GitHub*
- *Working with various development teams to create products across industries*

### Master Degree, Mechanical Engineering

University of Science and Technology of Oran Mohamed-Boudiaf USTOMB

📅 2015 - 2020   📍 Oran, Algeria

- Relevant courses : FORTRAN.
